Profile

Creative and performance-focused Frontend Developer with hands-on experience in building modern, accessible, and SEO-optimized websites using **HTML, CSS, JavaScript, WordPress, and Webflow**. Familiar with **React.js**, with ongoing development of advanced skills in building dynamic, responsive user interfaces. Passionate about user experience and web performance, consistently improving retention rates, reducing load times, and enhancing operational efficiency. Detail-driven, collaborative, and committed to delivering scalable, high-performance, and secure digital solutions.

Education

COMPUTER SCIENCE, BACHELOR'S DEGREE Jun 2012 - Sep 2015
LICEO MINERVA MIRABAL
Computer Science graduate with a strong foundation in programming, algorithms, and information systems. Passionate about technological innovation and equipped with analytical problem-solving skills.

Employment

FRONTEND WEB DEVELOPER Feb 2022 - Apr 2025
TRUENORTH Corp.

- Senior Developer with experience in WordPress and WebFlow, specializing in web security, maintenance, SEO, and site management on Azure servers.
- Focused on performance optimization and usability, implementing strategies that enhance user experience, data protection, and operational efficiency.
- Achieved a 25% increase in user retention and a 30% reduction in loading times through responsive interface development and advanced optimization techniques.
- Implemented custom CMS solutions in WordPress, boosting team efficiency by 40%.
- Developed 15+ web projects with WebFlow, integrating interactive animations and advanced SEO.
- Collaborated with cross-functional teams (UX/UI, backend) to ensure technical and visual consistency.

FULLSTACK WEB DEVELOPER Nov 2017 - Jul 2018
CYBERNETIPS, MIAMI

- Senior Developer with experience in Cloud architectures and server administration in CPanel, specializing in backend development from scratch for high-traffic, large-scale projects.
- Extensive experience in secure and optimized solutions, working with HTML, CSS, and JavaScript to build robust and scalable platforms.
- Focused on security, performance, and SEO, leading the optimization and maintenance of Cloud-based systems, improving stability and operational efficiency.
- Managed and optimized servers in CPanel and Cloud environments, ensuring high availability, security, and operational efficiency.

RESTful APIs (Fetch, Axios)

On-Page SEO (HTML Structure, Meta Tags, Google Lighthouse)

Agile Methodology (Scrum, Sprints)

Figma (Basic - Intermediate)

Languages

Inglés ●●●●●

Español ●●●●●

FRONTEND WEB DEVELOPER May 2021 - Sep 2022

D.MED Healthcare Group, Düsseldorf, Germany

- Designed and implemented user-centric interfaces for clinical systems using HTML, CSS, and WordPress.
- Built a secure patient portal serving over 5,000 monthly users.
- Led the redesign of the main platform, achieving a 95% satisfaction rate in usability testing.
- Improved workflow efficiency by integrating JavaScript-powered dynamic forms.

IT SECURITY ANALYST Jun 2018 - Feb 2023

DIRECCION NACIONAL DE CONTROL DE DROGAS (DNCD), LA ESPERILLA

- Security Analyst responsible for monitoring critical infrastructures, mitigating threats, and strengthening data protection protocols.
- Reduced vulnerabilities by 35% through regular audits and security policy updates.
- Detected and responded to 50+ security incidents annually, reducing resolution times by 25%.
- Implemented Active Directory and Azure to centralize access, decreasing security gaps by 20%.
- Trained 30+ employees on cybersecurity best practices.

Courses

JavaScript Essential Sep 2023

Comprehensive training in JavaScript, covering fundamentals to advanced concepts such as closures, symbols, complex operators, and object-oriented programming.

Essential React.JS

Solid understanding of React.js, including components, props, state management, hooks, and lifecycle methods. Focused on building dynamic, responsive user interfaces with clean and reusable code.

Git & Github Aug 2017

Proficient in Git & GitHub, including version control workflows, branching strategies, pull requests, conflict resolution, and collaboration on open-source and team-based projects.

Scrum Fundamentals Feb 2025

Strong knowledge of Scrum fundamentals, including agile methodologies, sprint planning, daily stand-ups, sprint reviews, and retrospectives. Experienced in working within cross-functional teams to deliver iterative and incremental value.

API Integration (REST, GraphQL) Mar 2020

Experienced in integrating APIs, both **RESTful** and **GraphQL**, for dynamic data fetching and interaction with third-party services in frontend applications.

Responsive Web Design Jan 2015

Strong expertise in responsive web design, using **Flexbox**, **CSS Grid**, and **media queries** to create adaptable layouts across various devices and screen sizes.
